**Subject-** Invitation as a Resource Person for the Workshop on "Intellectual Property Rights" for Final Year Mechanical Engineering Students.

Respected Sir,

Our Institute is established in 2009 in a view to impart engineering education to Under Graduate (UG) & Post Graduate (PG) Students. We wish to arrange A Workshop on "Intellectual Property Rights" for our Final Year Mechanical Engineering Students. This workshop will be helpful for our students from their career point of view.

We would like to invite you to deliver your knowledge in the above mentioned field & address our students on 11<sup>th</sup> February 2023 (From 9.10 am to 1.30 pm).

Thanking you...

Yours faithfully,

Respected Sir,

We would like to extend our sincere thanks to you for delivering series of lectures in A Workshop on "Intellectual Property Rights" for Final Year Mechanical Engineering Students on 11<sup>th</sup> February 2023. We are glad to say that the response from the students was enthusiastic. The information presented by you is definitely beneficial to our students for their career enhancement.

We genuinely thank you once again for the support and time given by you and we sincerely hope that you would continue to extend your valuable support in our future initiatives as well.

Thanking you.

One Day workshop on  
**“Research Methodology”**

Organized By: Mechanical Engg. Department,  
Sanjeevan Engineering and Technology Institute, Panhala

Date: 11<sup>th</sup> Feb. 2023

Time: 09:30 am onwards

Venue: Class room: Class Room 206, Mechanical Engg. Department

Resource Persons: Prof. Rahul U. Urunkar

Workshop Coordinator: Prof. Rahul U. Urunkar

The **Research Methodology** workshop was organized by Mechanical Engineering Department on 11<sup>th</sup> Feb. 2023 for Third Year B. Tech. students. The research methodology is important process because it helps to bring students research to the highest possible standard. The research methodology focuses the entire steps required to complete the research in more efficient way. This workshop creates interest in identifying research problems and methods or techniques to resolve the problems with scientific way which will be beneficial to the living being.

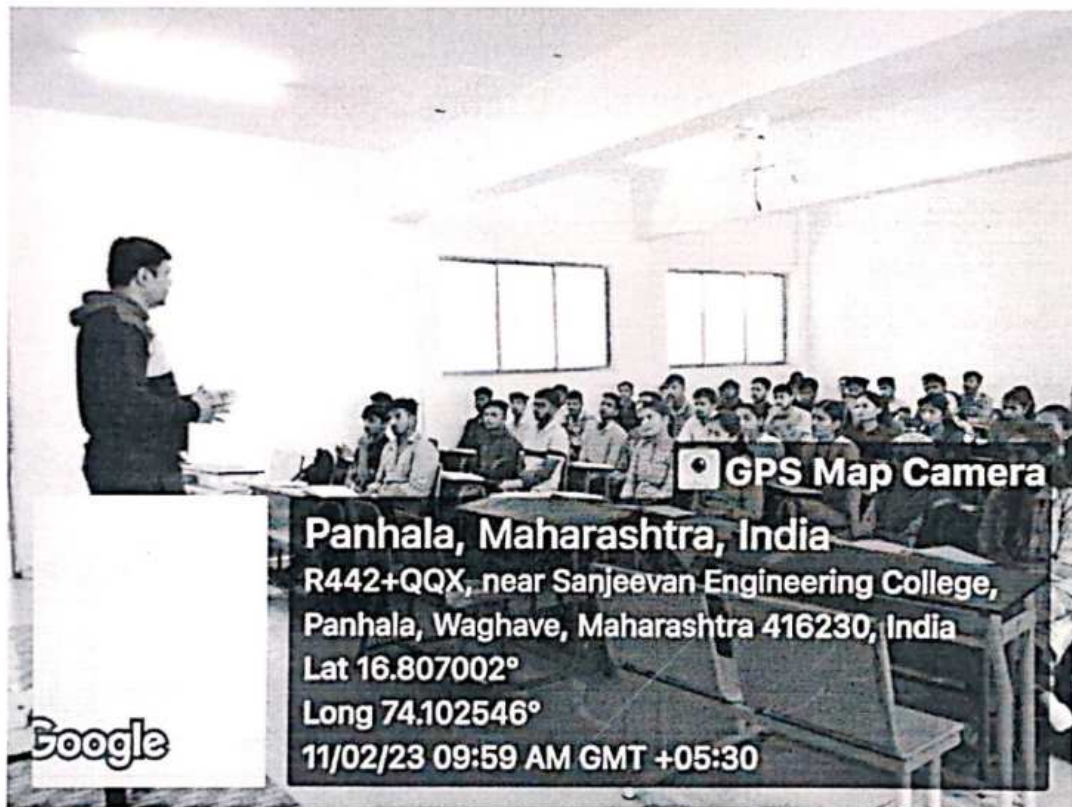

After completing this workshop, students got the knowledge about-

1. Different steps in Research Methodology
2. Problem identification
2. How to set the methodology to carry out research and data collection.
3. Result interpretation

The workshop was organized under the guidance of Prof. Sardar B. Deshmukh, HOD Mechanical Department and Dr.SanjeevN.Jain, Principal of SETI,Panhala.

Thanks to all faculty members who contributed in organizing this workshop.

Venue: Class room: 206, Mechanical Engg. Department

The **Research Process** workshop was organized by Mechanical Engineering Department on 8<sup>th</sup> Feb.2023 for Second Year students. This workshop creates interest in identifying research problems and methods or techniques to resolve the problems with scientific way which will be beneficial to the living being. The research process is important because it can help to bring students research to the highest possible standard. The research process allows seeing all the steps need to complete in order for research to be effective, allowing to work more efficiently and in a more focused way.

The objectives of the workshop were

1. To develop skill of problem identification though literature review.
2. To set the methodology to carry out research and data collection.
3. To interpret the result and take corrective measures, if any..

The workshop was organized under the guidance of Prof. V. H. Deokar, HOD Mechanical Department and Dr. S. N. Jain, Principal of SETI, Panhala.

Thanks to all faculty members who contributed in organizing this workshop.

### Department of Mechanical Engineering ACTIVITY REPORT

Name of the Activity	IPR Awareness Seminar
Type of Activity	Co- Curricular
Date and Time	03/08/2022, 10 AM to 12 AM
Details of the participants	20 Students
Organizing Department	Mechanical Engineering
Details of resource person	Prof. D. V. Patil

IPR Awareness Seminar was held on 3<sup>rd</sup> August 2022 in the department. The seminar was aimed to create first level IPR awareness among the faculty members, students and young intellectuals about the beneficial aspects of patenting their creative and novel ideas, inventions etc. such awareness would in turn be highly essential for the promotion of creativity, research and technical advancements as well as application into market.

India has a well-established statutory, administrative and judicial framework to safeguard Intellectual Property Rights (IPRs), however, it is still facing problems with the enforcement of IPR. It has always been a concern about slow judicial system involving lengthy and time-consuming procedure of trial in India, however, in recent years; Indian Courts have shown dynamism and zeal for effective protection of Intellectual Property Rights. It has been observed that by adopting right policies and strategies, IPR can be effectively protected with the help of law enforcement authorities.

The best way to secure the information for a trade secret is to restrict access to the secret and have individuals and companies sign nondisclosure agreements with you should you enter into a relationship with them which will require them to know some aspects of the secret. If someone independently develops or reverse-engineers your trade secret, there's nothing you can do. If someone does leak it, you can sue for theft. Suing, however, cannot stop the person from using the leaked information. So although you may get money from the suit, you lose the larger potential profits you could have made from the idea. Still, if your luck holds and your trade secret remains secret, royalty income from it can last significantly longer than the patent period.

The introductory session, a complete introduction on intellectual properties, intellectual property laws & their clauses covered. In this session, the students were taught about the Intellectual Property Rights & their principles. Also the students were given enough information about how to use this knowledge to proceed forward in a startup company. Also they have been taught how to use intellectual property laws in case of injustice and the legal options available in Indian judicial system.

Complete information on intellectual properties like patent, copyright, trademark, design, trade secret etc was given. Also the speaker explained the difference between these topics, also the validity for each right, judicial law available under each right & the limitations of each right. That was an activity session for the students where students were given an activity to come up with an innovative idea, solution & presentation for the given problem statements. Also the students were needed to inculcate how the students can use the above taught intellectual property rights, claim the benefits & get security in their startups.

A workshop on "Intellectual Property Rights" was held on 13<sup>th</sup> July 2021 in our departments lecture hall no 206.

Intellectual property refers to the protection of creation of mind which has both a moral and a commercial value. Prof. A. A. Katkar elaborated the IPR energetically. Intellectual property rights are the rights given to the persons over the creation of their mind: usually give the creator an exclusive right over the use of his/her creations for a certain period of time. The effective and enforceable system for protection of IPR promotes the innovation in science by promoting strong incentives to authors and innovators to create intellectual assets.
