7.3.1 QIM Portray the performance of the Institution in one area **distinctive to its priority and thrust** within 1000 words.

Provide web link to: Appropriate web in the Institutional website

- Any other relevant information

Description:

Title of the Practice (50): Upliftment of (underprivileged and) rural society through effective use of CSR funds

Objectives of the Practice (100):

1. Skill development of students for employability
2. Holistic development for making them responsible citizens
3. Extend financial support to underprivileged rural students
4. Awareness among underprivileged farmer community for socio-economic development

Context (150 words):

Our institute is situated in the midst of rural areas surrounded by rural hilly area mostly occupied by farmers. Most of the parents are farmers and they are underprivileged and economically poor. Therefore the students coming from such regions are facing financial problems particularly for their higher education.

Moreover, the **job market is limited**, and the **opportunities** available for aspiring graduates **are scarce**. As a result, many students who grew up in such areas are often struggling to find employment after graduation. This can be a major challenge, as it can lead to **high levels of unemployment and underemployment**, which gives negative effects on their economical stability and growth.

Imparting quality education and catalyzing growth of rural community are two priority **missions** along the way of our institute's **vision**. The institution is committed to impart quality education to underprivileged rural students and it is also pledged to the socio-economic development of the rural community.

In view of these facts, our institute accomplishes its particular **priority and thrust** by uplifting the students through their employability skill development using CSR funds effectively. The institute is meeting with it's another priority and thrust by helping and educating underprivileged people from rural community by means of CSR funds from industries.

Practice (400 words) :

Technical Skill development

The institute feels proud to quote here that with continuous efforts of faculty members and frequent interactions with the industries, we have successfully signed MoU with "Friends Union for Energising Lives (FUEL), Pune", which is a non-profit organization with a mission to provide the youths of the nation to access the essential information about career opportunities.

The institute regularly identifies the underprivileged students from rural areas for their job-oriented technical skill development programs conducted by **FUEL** at their Pune campus. FUEL trains these students rigorously on trending technologies from IT and ITES domains with the **state-of-the-art** lodging and boarding facilities. FUEL makes use

of CSR funds from the corporate companies connected to them for youth career development. Our students are trained extensively and are grabbing job opportunities from IT and ITES domains. Around 93 students in three batches have completed their job oriented technical training of FUEL during last two years. Some students have grabbed wonderful job opportunities in companies like with an highest **package of 7.5 Lacs/annum** resulting from the effective training from FUEL.

Soft Skill development

The institute has signed MoU with a couple of third parties such as Global Talent Track (GTT) Pune and Rubicon, Pune which are NGO with a mission of making young graduates employable by bridging the gap between real-world expectations and actual skills. The CSR-led skills programs uplift underprivileged and specially-abled students with counseling, training, and placements. More than 600 students of our institute have undergone soft skill and life-skills training programs offered by the trainers of GTT Pune during last two years at our campus. Some students have grabbed fabulous job opportunities in companies like **i-Value, Bangalore** with an attractive **package of 7 Lacs per annum**.

Quality Education through Byjus App:

To improve the Quality of Education in rural areas of Kolhapur and Sangli district, institute arrange the “Flagship program” distribution of **Byjus App** among rural students under the able leadership of Dr. Suhas G. Sapate who is Academic Ambassador of “Smiles Foundation, Mumbai”- a CSR channel partner of Byjus. Around 450+ subscriptions of BYjus Premium App worth Rs. 4.5 Crore were distributed to the underprivileged school and junior college students from hilly and rural areas. The schools teachers, parents and students became very happy and appreciated the distinctive initiative of Sanjeevan Panhala and usage of App has improved the quality of education in rural areas.

Institute deputed the faculty members for educating the rural students of high schools and junior colleges on various cutting edge technologies. The institute arranges the special programs towards gender equality, women empowerment, special programs for women entrepreneurs, special counseling for women health and education etc.

Career Guidance

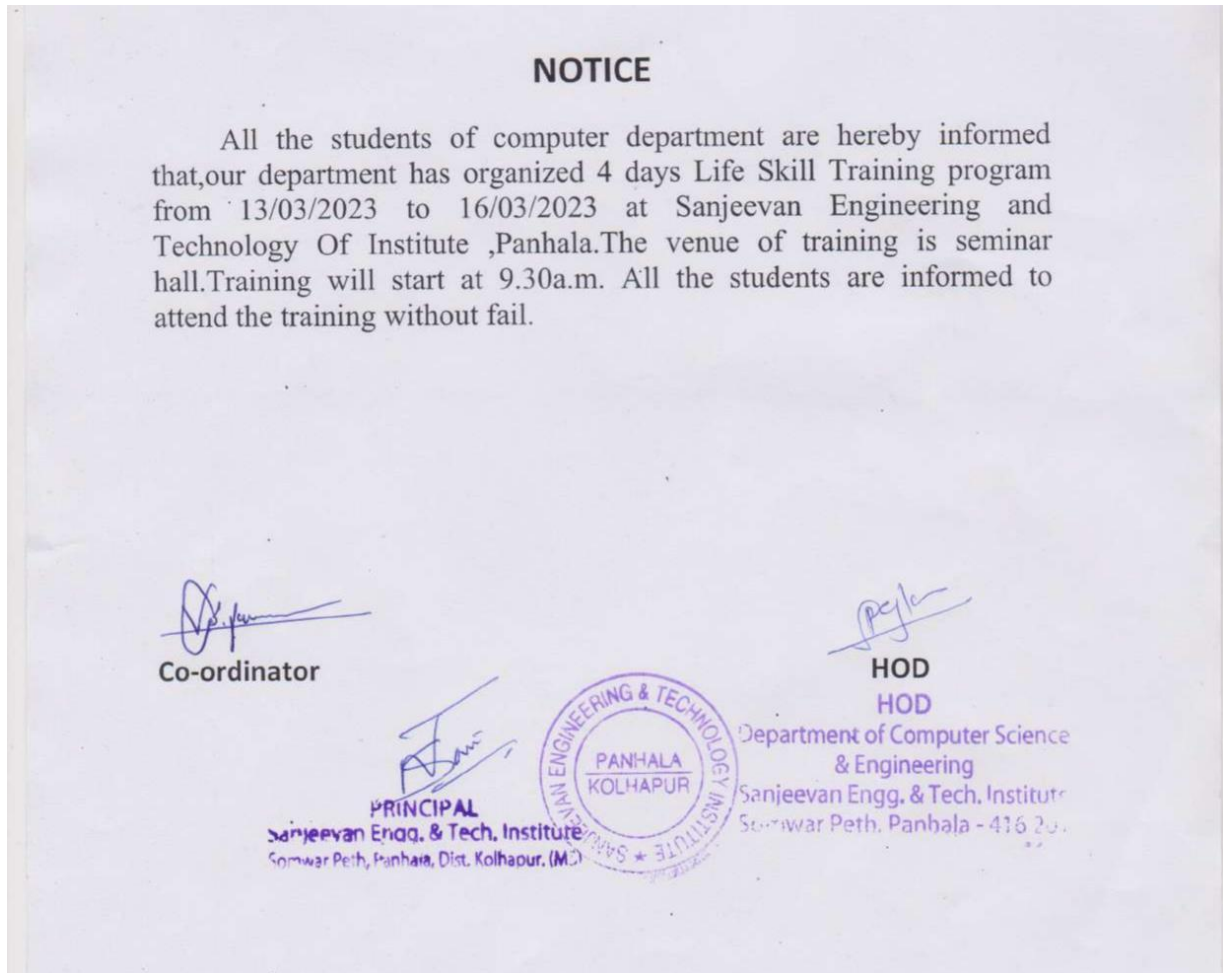

In association with **Wisdom foundation Kolhapur**, the faculty members of institute have conducted special career guidance programs to encourage rural kids from low income families to pursue higher education. To promote its programs, each Department holds a variety of competitions and **guide school kids** advantages of the engineering **Diploma and degree** programs. The faculty members help the rural students and parents by clearly presenting program information and assisting them in overcoming the uncertainty of selecting the appropriate program based on their interests. The institute extends its technical support to all the schools from neighboring rural areas by arranging their **field visit at our campus** and provide all the students detailed information about engineering education and career oriented opportunities in engineering.

Technical and Financial support to Underprivileged Farmers

The institute takes an initiative to organize lectures and workshops for farmers from rural areas to guide them on technical issues of water management, soil conservation, organic farming, encourage them to use wormy compost, organic fertilizers etc. The institute has distributed **polythene covers of farm ponds worth Rs. 2.5 Lacs to 15 beneficiary** underprivileged farmers from nearby rural areas. This activity was a part of CSR funds from **Dalmia Bharat Foundation**, India. The institute also assists the farmers for filling all types of online forms for availing various government schemes with subsidy.

Wisdom Foundation Entrepreneur Award and Development Program

Date: [23 Feb, 2023]

Sanjeevan Engineering and Technology Institute, Panhala

Report Overview:

The Wisdom Foundation recently organized an Entrepreneur Award and Development Program for the students of Sanjeevan Engineering and Technology Institute. This program aimed to provide valuable guidance, resources, and support to the budding entrepreneurs of the institute, facilitating their journey towards becoming successful entrepreneurs.

Program Highlights:

Guidance from BYST and Nehru Yuva Kendra: The program featured esteemed guests and mentors from BYST (Bharatiya Yuva Shakti Trust) and Nehru Yuva Kendra who shared their knowledge and experiences with the students. Their insights and expertise in entrepreneurship provided valuable guidance to aspiring entrepreneurs.

Book Distribution: In an effort to enhance the students' knowledge and skills, the Wisdom Foundation distributed a collection of books related to entrepreneurship, business development, and leadership. These resources will serve as valuable references for the students in their entrepreneurial endeavors.

Distinguished Presence: The event was graced by the presence of the esteemed Principal of Sanjeevan Engineering and Technology Institute, Mr. S.N. Jain, and the Vice Principal, Dr. Suhas Sapate. Their participation and guidance were instrumental in motivating and inspiring the students to pursue their entrepreneurial dreams.

Key Takeaways:

The Entrepreneur Award and Development Program left a lasting impact on the students of Sanjeevan Engineering and Technology Institute:

The guidance from BYST and Nehru Yuva Kendra mentors provided students with valuable insights into the entrepreneurial world, helping them shape their business ideas and strategies.

The book distribution initiative empowered students with a wealth of knowledge and resources that will serve as a foundation for their entrepreneurial journeys.

The presence of the institute's Principal and Vice Principal reaffirmed the institution's commitment to nurturing entrepreneurship among its students, providing encouragement and support to those aspiring to become entrepreneurs.

Conclusion:

The Wisdom Foundation's Entrepreneur Award and Development Program was a resounding success, leaving a positive and lasting impact on the students of Sanjeevan Engineering and Technology Institute. With the guidance of experienced mentors and access to valuable resources, the students are well-equipped to embark on their entrepreneurial endeavors with confidence and enthusiasm. The institution's commitment to fostering entrepreneurship was further highlighted through the participation of its esteemed leadership.

This program serves as a testament to the potential of young entrepreneurs and their ability to shape a brighter future for themselves and the business world at large. It is a significant step toward nurturing and promoting the entrepreneurial spirit among the youth, paving the way for innovation and economic growth.

06) Guidance about engineering education during field visit of jr.colleges and schools: Reprints with photos

1. Title of the Practice –

Awareness among rural area towards higher education

2. Objectives of the Practice:

- ✓ To make the rural students and parents aware about higher education through personal counseling.
- ✓ To convey different government schemes and facilities towards higher education among the rural masses.
- ✓ To create awareness regarding procedure (entrance test) and eligibility of engineering education.
- ✓ To nurture the young rural students in the domain of technical education.

3. The Context:

The institute is located around 25 kilometers away from Kolhapur at the foothill of the historical Panhala fort. The location of the institute is very remote where connectivity through public transport vehicles is very poor. The area surrounded around the institute is very rural where main occupation of the population is farming, especially rainy season crops such as rice and other rain dependent crops. Therefore the area is a bit less educated and majority of the population is below poverty line. Therefore it becomes necessary to guide and counsel the students and their parents regarding engineering education. The students are potentially good in their school academics but the appropriate guidance in their career building is lacking. Through our institute cell, the students and parents are made aware about the avenues in higher professional education especially in engineering and technology.

4. The Practice:

The cell is formed and coordinated by one faculty acting as the overall in-charge of cell.

The android messaging group on WhatsApp is created, and every teaching and nonteaching staff is the member of this group. The member of the group is sharing his / her contribution for awareness on this group through photographs, text messages and the important circulars.

The various regions representing teams are prepared based on the location suitability of faculties and staff. These teams headed by faculty coordinators and members visits nearby schools, junior colleges and academies for seeking permissions to arrange the awareness sessions of opportunities in higher education's after SSC and HSC to the students. The team members conduct various sessions for creating awareness among the students and parents regarding education after SSC, HSC, etc. and also create awareness regarding the entrance examinations for career opportunities through higher education especially technical education

For building confidence before the MHT-CET final exam, the MOCK test is organized and conducted with the due permission of the head of the respective organizations at various Jr. colleges and academies for the benefit of rural students.

This cell helps and guides the interested and eligible students for their admissions and enrollment in their areas of interest. For this purpose the institute opens the facilitation center (FC) approved and permitted by DTE, MS.

The job of FC is to provide necessary guidance and help for all the procedures related to its engineering and polytechnic admissions.

5.Evidence of Success:

The institute is well known for its Engineering Education in all the programmes including UG, PG and Diploma.

The established Admission cell of SETI encourages the rural area students to enroll for Engineering Education. This is made successful by all team members. The awareness of higher education and reputation of SETI and its faculty in nearby rural society is enhanced due to technical sessions, guidance, presentations and interactions. The people to whom the faculty team members interacted also impressed and started giving advises to the next generation students about SETI and its various programmes of engineering education

6.Problems Encountered and Resources Required:

Some villages of concern are very remote where approach towards needy student by public transport was bit difficult. In some of the areas at the time of presentations the problem of power shortages were arises. During interactions and presentation regarding higher education need of internet facility also was not available at some of the locations

These problems were thoroughly studied by SETI cell and provided all the necessary support to overcome the same, which includes provision of transportation in the form of institute vehicles. By providing laptops, LCD projectors for presentation and USB modem for accessing internet
