Details of resource person	Prof. A. A. Katkar

A workshop on "Intellectual Property Rights" was held on 13th July 2021 in our departments lecture hall no 206.

Intellectual property refers to the protection of creation of mind which has both a moral and a commercial value. Prof. A. A. Katkar elaborated the IPR energetically. Intellectual property rights are the rights given to the persons over the creation of their mind: usually give the creator an exclusive right over the use of his/her creations for a certain period of time. The effective and enforceable system for protection of IPR promotes the innovation in science by promoting strong incentives to authors and innovators to create intellectual assets.
