Swachh Survekshan 2019 is being effectively implemented in Panhala Municipal Council limits. Panhala Municipal Council is always ready to win at the national level under Swachh Survekshan 2019. A workshop was organized on 31/01/2019 through the National Service Scheme (NSS) of Sanjevan Engineering and Technology Institute Panhala to create public awareness among the people as well as to register complaints through the Swachhta App if there are any complaints about sanitation.

Hirine, a student of Sanjeevan Engineering and Technology Institute Panhala participated in this workshop and enlightened the citizens about the magic cleaning app at their homes. Due to these activities of the students, the Panhala Municipal Council has made a significant contribution in getting the best number from the city with a population of less than 25000 in the western region. The Panhala Municipal Council is thankful to Panhala Municipal Council for the successful completion of the said activity.

The cooperation of your organization is still expected.

REPORT

Women empowerment cell of SETI organized blood investigation camp for girls and all ladies faculty.on 12/10/2022.

In line with government policy for welfare of women that camp is organized in collaboration with PHC (Rural hospital) Panhala under the theme *Mata surakshit-Desh surakshit.*

Dr.Amruta Gurav and lab technician team takes the blood sample and investigate for basic tests like Thyroid, WBCs, RBCs. HB etc. in their lab

That investigation is very much useful in view of girls health and future illness can be predicted on this basis.

All PHC team investigate very well and give printed reports. And also take follow up of girls who are in danger of Anemia.

Total 101 students participated in this event.

The workshop was divided into two sessions the first in the morning and the second in the afternoon. In the morning session a lecture demonstration was conducted by Mrs. Shital Bhosale-Ghatage Advocate & Legal adviser. She talked about patriarchy, violence in the family as well as issues related to Gender inequality in our society.

This was followed with an afternoon session involving a panel discussion and the role of the ICC/WEC in implementing the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal), Act 2013 That session is led by Prof. A.M.Momin Presiding Officer, Women empowerment cell, Prof. Shraddha Kumbhar Asst. Prof. Computer department Gives Power point presentation on the provisions of the Act made and the Act was discussed. The manner in which complaints are to be addressed was also explained. The participants participated actively in the open house discussion and were appreciative about getting an opportunity to know and discuss gender sensitivity and implementation of the Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal), Act 2013.

Around 88 participants from various colleges and Departments of the Institute attended this workshop. They were given a certificate of participation. It is hoped that colleges and departments also conduct such workshops in future

09) Awareness program for higher education

1. Title of the Practice –

Awareness among rural area towards higher education

2. Objectives of the Practice:

- To make the rural students and parents aware about higher education through personal counseling.
- To convey different government schemes and facilities towards higher education among the rural masses.
- To create awareness regarding procedure (entrance test) and eligibility of engineering education.
- To nurture the young rural students in the domain of technical education.

3. The Context:

The institute is located around 25 kilometers away from Kolhapur at the foothill of the historical Panhala fort. The location of the institute is very remote where connectivity through public transport vehicles is very poor. The area surrounded around the institute is very rural where main occupation of the population is farming, especially rainy season crops such as rice and other rain dependent crops. Therefore the area is a bit less educated and majority of the population is below poverty line. Therefore it becomes necessary to guide and counsel the students and their parents regarding engineering education. The students are potentially good in their school academics but the appropriate guidance in their career building is lacking. Through our institute cell, the students and parents are made aware about the avenues in higher professional education especially in engineering and technology.

4. The Practice:

The cell is formed and coordinated by one faculty acting as the overall in-charge of cell.

The android messaging group on WhatsApp is created, and every teaching and non teaching staff is the member of this group. The member of the group is

sharing his / her contribution for awareness on this group through photographs, text messages and the important circulars.

The various regions representing teams are prepared based on the location suitability of faculties and staff.

These teams headed by faculty coordinators and members visits nearby schools, junior colleges and academies for seeking permissions to arrange the awareness sessions of opportunities in higher education“s after SSC and HSC to the students.

The team members conduct various sessions for creating awareness among the students and parents regarding education after SSC, HSC, etc. and also create awareness regarding the entrance examinations for career opportunities through higher education especially technical education.

For building confidence before the MHT-CET final exam, the MOCK test is organized and conducted with the due permission of the head of the respective organizations at various Jr. colleges and academies for the benefit of rural students.

This cell helps and guides the interested and eligible students for their admissions and enrollment in their areas of interest. For this purpose the institute opens the facilitationcenter (FC) approved and permitted by DTE, MS.

The job of FC is to provide necessary guidance and help for all the procedures related to its engineering and polytechnic admissions.

5.Evidence of Success:

The institute is well known for its Engineering Education in all the programmes including UG, PG and Diploma.

The established Admission cell of SETI encourages the rural area students to enroll for Engineering Education. This is made successful by all team members. The awareness of higher education and reputation of SETI and its faculty in nearby rural society is enhanced due to technical sessions, guidance, presentations and interactions. The people to whom the faculty team members interacted also impressed and started giving advises to the next generation students about SETI and its various programmes of engineering education

6.Problems Encountered and Resources Required:

Some villages of concern are very remote where approach towards needy student by public transport was bit difficult. In some of the areas at the time of presentations the problem of power shortages were arises. During interactions and presentation regarding higher education need of internet facility also was not available at some of the locations.

These problems were thoroughly studied by SETI cell and provided all the necessary support to overcome the same, which includes provision of transportation in the form of institute vehicles. By providing laptops, LCD projectors for presentation and USB modem for accessing internet
