ABOUT Sanjeevan,

Hon. P. R. Bhosale is the Chairman of Sanjeevan Knowledge City. He is a man of foresightedness, thoughtfulness and unprecedented courage, born in a peasant family, in the village of Narande; he worked as a sports instructor in an educational institution at Panhala. He played the pivotal role in the establishment of Holy-wood Academy and he has proved the fact that even a zero can become an academically specialized bureau. The errand of this great man started only with seven students and accumulated the troop of about 3500 scholastic supporters. Aiming for the value based education to create the virtuous and staunch India, his contribution is unparalleled.

My happiness has no boundaries about the Sanjeevan's scintillating ever growth and my heart leaps to say about self conviction.

"When the sun is shining
I can do anything
There is nothing tough
No mountain is too high
No trouble is too difficult to overcome"

We transplanted obstacles into opportunities lifting Sanjeevan to the top most pinnacle and zenith of glory, to make an ideal educational institution and good learning centers of India. The deep faith and support of parents and public served as a substantial moral boost, for this drastic progress. It has successfully emerged as life building, man making and character forming institution, where students are made to realize the importance and application of initiative thinking, planning, initiation and implementation.

Educational practices are more geared up to cope up the changing needs and standards of life by the successful application of audio visual aids, internet facilities and other advancement in the system. Activity oriented education is rendered towards achieving the highest perfection. Sanjeevan that aims to elevate the whole aspect of life into a novel realm of knowledge and enlightenment among the pupils.

I am indeed extremely happy to repeat the proclaims Sanjeevan's mission statement :

"To bring harmonious blends in pupil's body,
Mind and soul through teaching and varied
Co-curricular activities, monitoring them to face
This competitive world and to contribute
Genuinely to the civilization"

And while advancing forward with this life time mission statement, we have reached a mile stone of achievement on preparing top class professionals and worthy citizens.

"Sanjeevan is a rising sun
Will keep on striving
For excellence in education"

- Hon. P. R. Bhosale
(Founder & Chairman)

Automobile Engineering

Today's automotive industry needs expert engineers in the field of vehicle design and manufacturing. Since the Kolhapur city is the automobile hub of Maharashtra, where great potential available for the students to work in those industries which are leading manufacturer of all types vehicle engines like TATA, Ford, Hyundai, Maruti Suzuki, and Ashok Leyland in India.

With this vision, the Department of Automobile Engineering has been established in 2010 at Sanjeevan Engineering & Technology Institute, Panhala to train the students which will fulfill the need of automobile industry.

Civil Engineering

Civil Engineering, the mother branch, has kept pace with the rapid growth in the field of technology. It is that branch of engineering which provides basic amenities required for the survival and maintenance of the environment. The department of civil engineering established in 2009, with capacity of 60 for under-graduate courses. The Civil Engineering department provides all the facilities required to study and understand construction with an eye on environmental friendliness. The department has well qualified and experienced staff supported with well equipped laboratories, computing facilities and skilled laboratory staff. The faculty has participated in several academic activities by submitting research papers at national and international levels.

Electrical Engineering

The universe that we live in is continuously shrinking and a lot of credit goes to the fast growing Electrical Engineering revolution. The Electrical Engineering Department was established in 2010. The department of Electrical Engineering has an intake of 60 students. We proposed Ten well-equipped different laboratories like Electrical Machines, Power System, Control System, Switchgear and Protection, High Voltage lab., Basic Electrical & Electronics, Electrical measurement & Measuring Instrument, etc. These labs holistically conform to not just the University curriculum but also industry requirements. In addition to that many additional extra curriculum activities that are being conducted for the students to give them cut edge knowledge in the fast paced world of Electrical Engineering.

One among the first six departments to be established in 2009 in the institute, the Mechanical Engineering Department of SETI has the reputation of being among the finest in the Shivaji University, Kolhapur, and Maharashtra and is dedicated towards the advancement of technology and science. Mechanical Engineering Department is also one of the biggest departments of the institute with student strength of about 420 and M. E. 18 (Mechanical design Engineering) which will touch higher strength in next few years. While managing this increased strength which is an urgent need of the nation, department is committed to well being and all round development of its students.

Mechanical Engineering

ELECTRONICS AND TELECOMMUNICATION ENGG.

The department Electronics And Telecommunication Engineering was started in 2009 with basic intake 60. The goal of department is to provide students basin knowledge of electronics and update their knowledge in innovations in telecom field. The Post Graduate programme was started in E&TC with intake 18 in 2015-16. The department has highly qualified and experienced faculty. The department provide various equipments to students such as Wave Propagation Kit, CPLD / FPGA kits, ISDN and Mobile Trainer Kit, Microwave Test Bench, Antenna and RADAR trainer kit, MATLAB and Or CAD softwares etc.

It includes engineering chemistry, engineering Physics, engineering mathematics subjects. We have expert teachers & well equipped laboratories to enhance knowledge of students.

General Engineering

Computer Science & Engineering

Department of Computer Science was established in the year 2009 under the Shivaji University Kolhapur with the basic intake of 60. It is established with the objective of imparting quality education in the field of Computer Science. With rapidly evolving technology and the continuous need for innovation the department has always produced quality professionals, holding important positions in Information Technology industry in India and abroad.
